

# Anatomy & Physiology Projects Timeline

## Overview of Due Dates

<b>Project</b>	<b>Due Date</b>	<b>Final Submission</b>
<b>Literature Review</b>	December 10	Final Draft of Literature Review Due
<b>PSA Poster</b>	April 1	PSA Poster Presentation Due
<b>Case Study</b>	May 6	Final Draft of Case Study and Research Poster Presentation Due

## Timeline and Checklists

### August – Project Overview

- Start thinking about possible topics of interest
- Begin exploring PubMed/Google Scholar

### September – Literature Review Topic Selection

- Choose your literature review topic
- Submit topic idea for approval**, email by September 22
- Start collecting research articles
- Begin a research tracker (recording article titles, key findings)

### October – Literature Review First Draft

- Continue collecting and summarizing articles
- Draft outline (introduction, themes, conclusion)
- Write first draft of literature review
- Outline Due**, October 27

### November – Literature Review Final Draft

- Receive teacher feedback
- Revise and finalize paper
- Literature Review peer feedback forum**, November 12

## **December – Start PSA Planning + Case Study Subject**

- Final Draft Due**, December 10
- Think about PSA topic—what’s the most important takeaway from your lit review?
- Start thinking about who you could observe for your case study (family, friend, or yourself)
- Ask for permission and submit consent form for case study subject

## **January – PSA Development**

- Define PSA message
- Create PSA draft (storyboard, poster draft, video outline, or slide outline)
- PSA topic idea for approval**, email by January 28

## **February – Finalize PSA**

- Receive feedback on PSA idea
- Finalize PSA project with clear message and visuals

## **March – Start Case Study Data Collection**

- PSA Posture Presentation**, March 30
- Begin collecting data on your case study subject
- Keep observation notes in a journal or tracker
- Use your literature review to guide what to observe

## **April – Case Study Draft Writing**

- Organize case study sections: introduction, methods (what you observed), results, conclusion
- Complete first full draft of your case study paper
- First Draft Due**, April 13

## **May – Finalize Case Study and Prepare Presentation**

- Receive feedback on case study draft
- Revise and complete final paper
- Prepare a poster presentation on your case study
- Final Case Study Paper and Presentation Due**, May 4
